IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:)
Brian L. Dullman) Group Art Unit: 3637
Application No.: 10/000,352) Examiner: Gerald A. Anderson
Filed: December 4, 2001)
)

For: BLOOD BAG SUPPORT STRUCTURE AND METHOD FOR REFRIGERATORS

**RESPONSE TO RESTRICTION REQUIREMENT
AND ELECTION OF SPECIES UNDER 35 U.S.C. § 121**

Assistant Commissioner for Patents
Washington, DC 20231

Sir:

In response to the Office Action dated March 24, 2003, the Examiner requested that a restriction requirement and an election of species be made under 35 U.S.C. § 121. Specifically, the Examiner requires a restriction under 35 U.S.C. § 121 between Group I, claims 1-17, drawn to a refrigerator support structure and Group II, claims 18-22, drawn to a method of assembly. Further, the Examiner requires an election of species under 35 U.S.C. § 121 for Figure 1, Figure 5 and Figure 7, separately. However, it should be noted that Figures 5 and 7 are of the same embodiment and thus should be grouped together as a single species.

RECEIVED
APR 18 2003
GROUP 3600

In response to the above requirements, Applicant hereby elects with traverse, Group I, claims 1-17 and the species of Figures 5 and 7 readable on claims 1-22 accordingly. Thus, it is believed that the overlapping claims 1-17 should be treated on the merits.

Respectfully submitted,

Baker & Hostetler LLP
